To whom it may concern,

I would like to take this opportunity to recommend Bill Mansur as a professional pitching coach for fastpitch softball. I have known Bill for over six years. Coach Mansur encourages great mechanics for beginners and has vast knowledge of all advanced pitches.

His patience with young pitchers is impeccable. He teaches the importance of sound mechanics and a fast arm. His number one rule is to always throw hard and accuracy will follow. This helped me over the years to learn the fundamentals to become an elite pitcher. While being recruited from several colleges the one thing that I always heard was, "You have the best mechanics we have ever seen."

If you are a beginner or an advanced pitcher, Coach Mansur has the knowledge to help you learn the different ways to throw many pitches. Whether you need help increasing speed, a new wind up or balance he has the tools to help you succeed.

Even though I am in college, I still call Bill to help me improve my pitching abilities. He always knows the right fix for every problem and the right change to add the extra mile an hour.

Sincerely
Kelly Marie Franks
